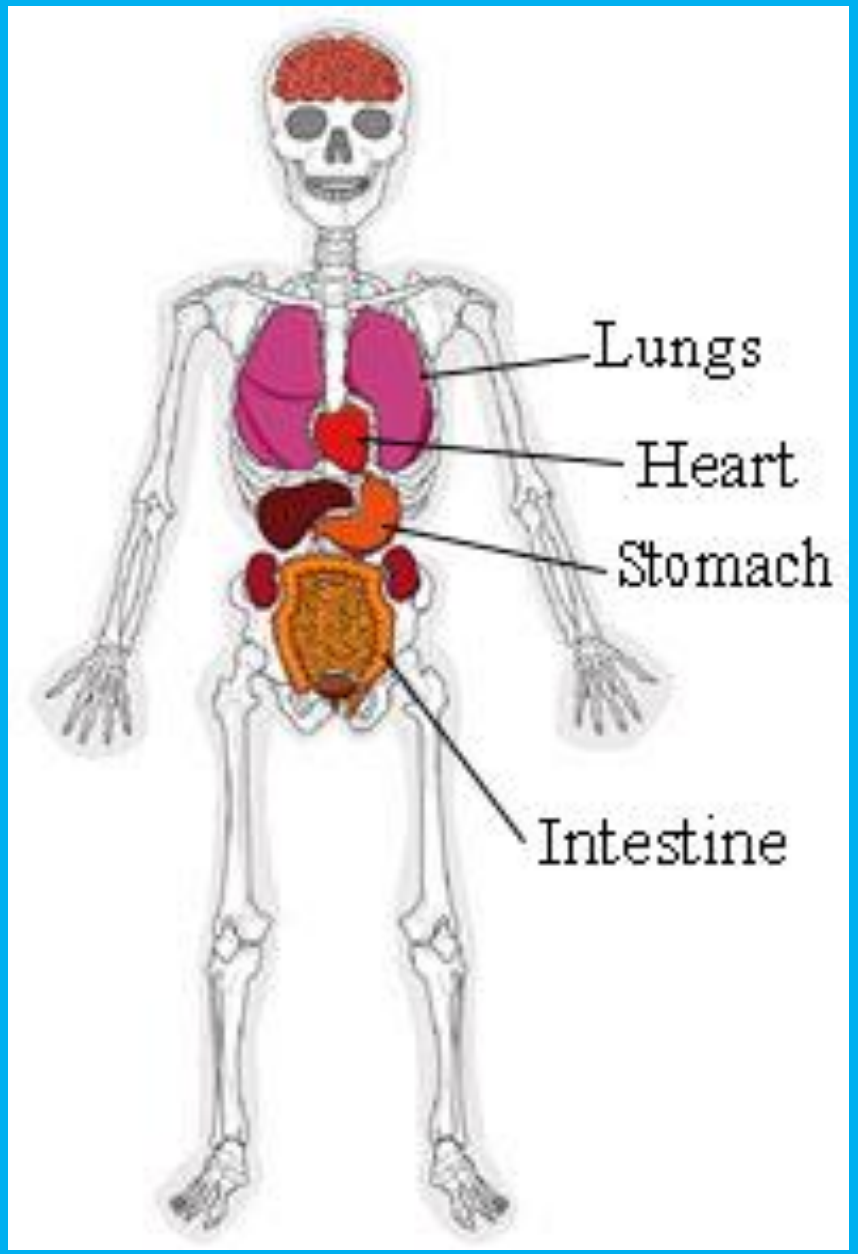
MY BODY

Parts of the body:

© Pedro Antonio López Hernández

ORGANS



© Pedro Antonio López Hernández

© Pedro Antonio López Hernández

HEALTHY HABITS

Have a shower

Do exercise

Eat healthy food

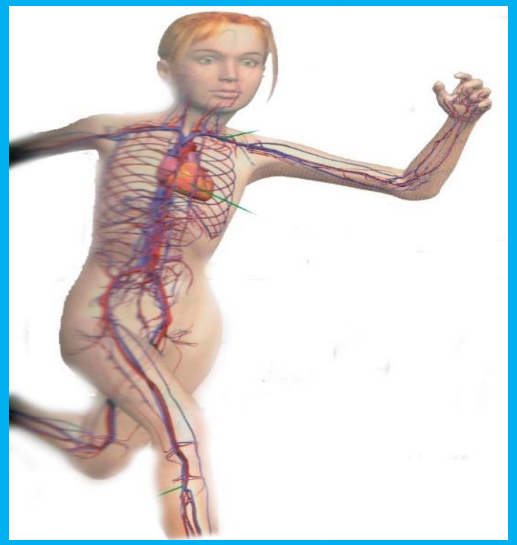
Go to sleep early

© Pedro Antonio López Hernández

SYSTEMS OF THE HUMAN BODY

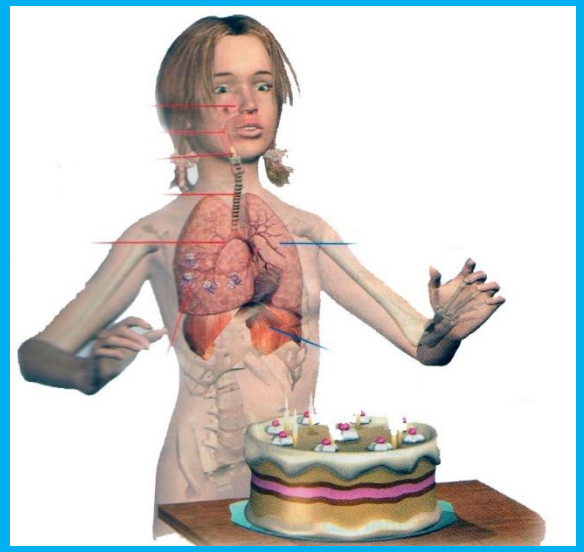
Circulatory System

The heart



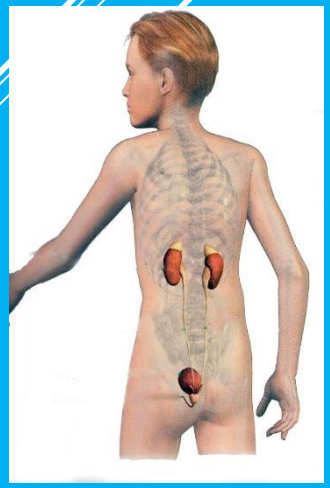
Respiratory system

Inhalation and exhalation



Digestive system

Mouth (Teeth)
Stomach
Intestines



© Pedro Antonio López Hernández

FOOD ORIGIN

Plants

Animals

THE UNIVERSE

© Pedro Antonio López Hernández

THE UNIVERSE

Stars

The sun

- It shines
- It´s big
- It give us hot and light
- It´s made of fire
- It´s in the space
- It doesn´t move

Satellites

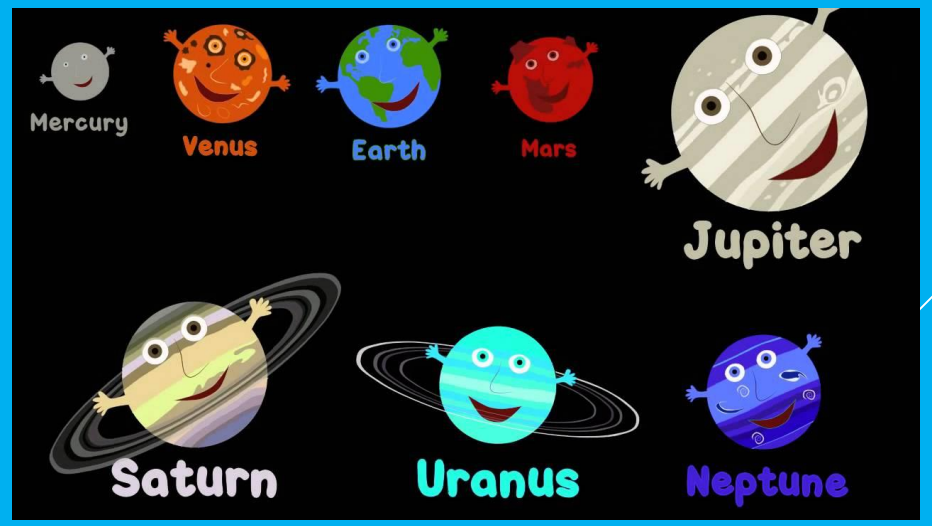
The moon

- It has four lunar phases
- Rotate around planets

Planets

Solar system

It has eight planets



The Earth

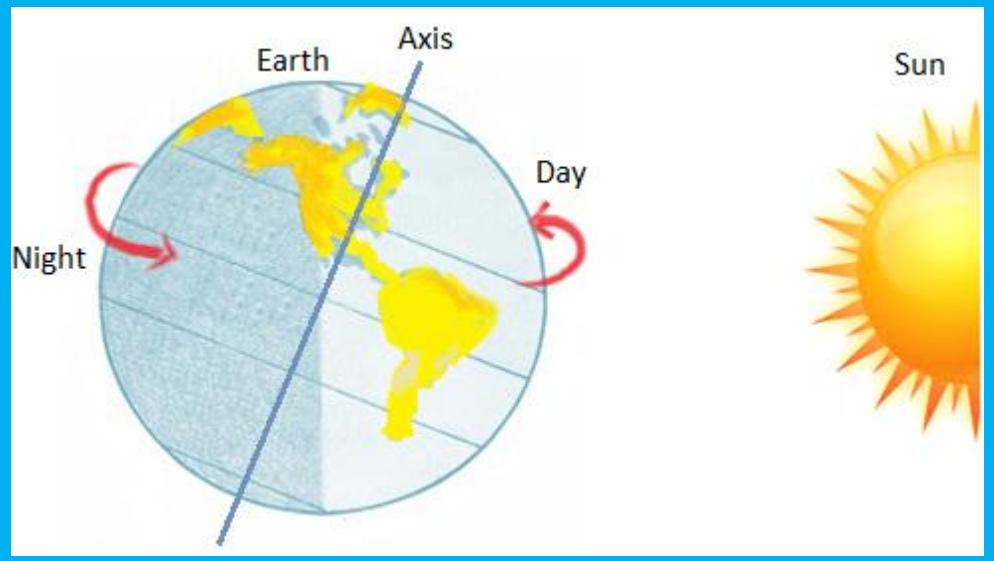
- It has land and water
- It has living
- Human live in the Earth
- It moves around the sun and around itself
- It doesn´t shines

© Pedro Antonio López Hernández

EARTH MOVEMENTS

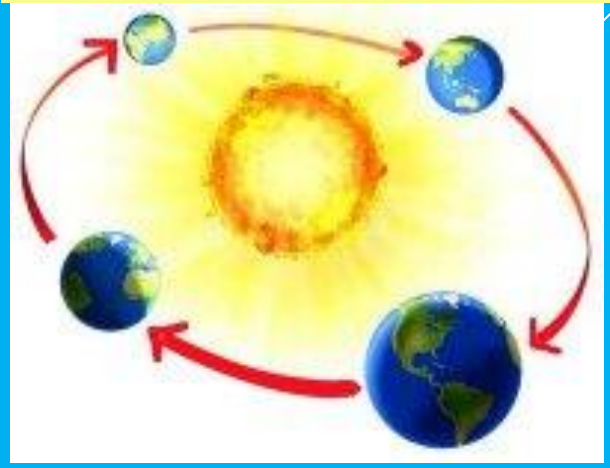
Rotation

It takes 24 hours for the Earth to rotate around it´s axis

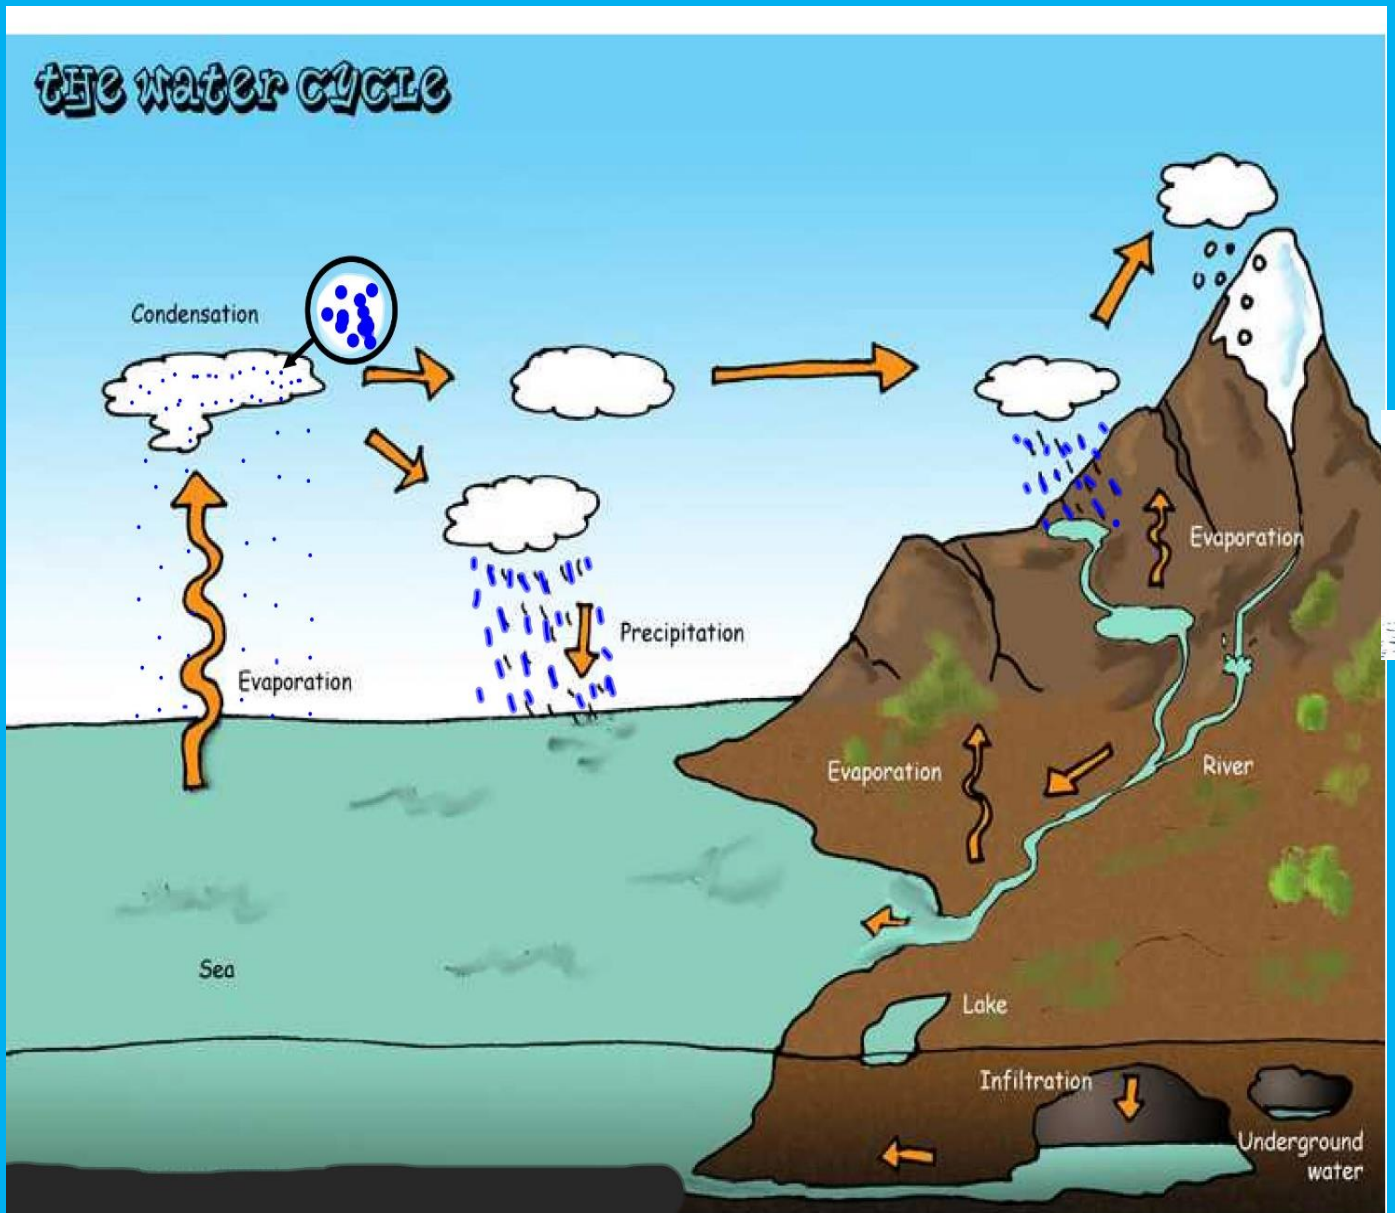


Translation/Revolution

It takes 365 days for the Earth to move around the Sun



WATER CYCLE



STATES OF WATER

Solid

Liquid

Gaseous

TYPES OF WATER

Surface water

Water in ocean, lakes and rivers

Groundwater

Water in caves and rocks

BE CAREFUL!

NO ALL WATER IS DRINKING WATER

© Pedro Antonio López Hernández

ANIMALS

Types of animals

Domestic animals

Wild animals

Animal´s diet

Herbivorous

Eat plants

Carnivorous

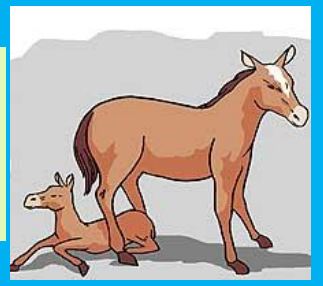
Eat meat

Omnivorous

Eat plants and meat

ANIMAL REPRODUCTION

Viviparous → It has developed inside their mother´s body



Oviparous → They are animals that reproduce by laying eggs

VERTEBRATED AND INVERTEBRATED ANIMALS

Vertebrates
- Mammals
- Poultry
- Fish
- Reptiles
- Amphibians

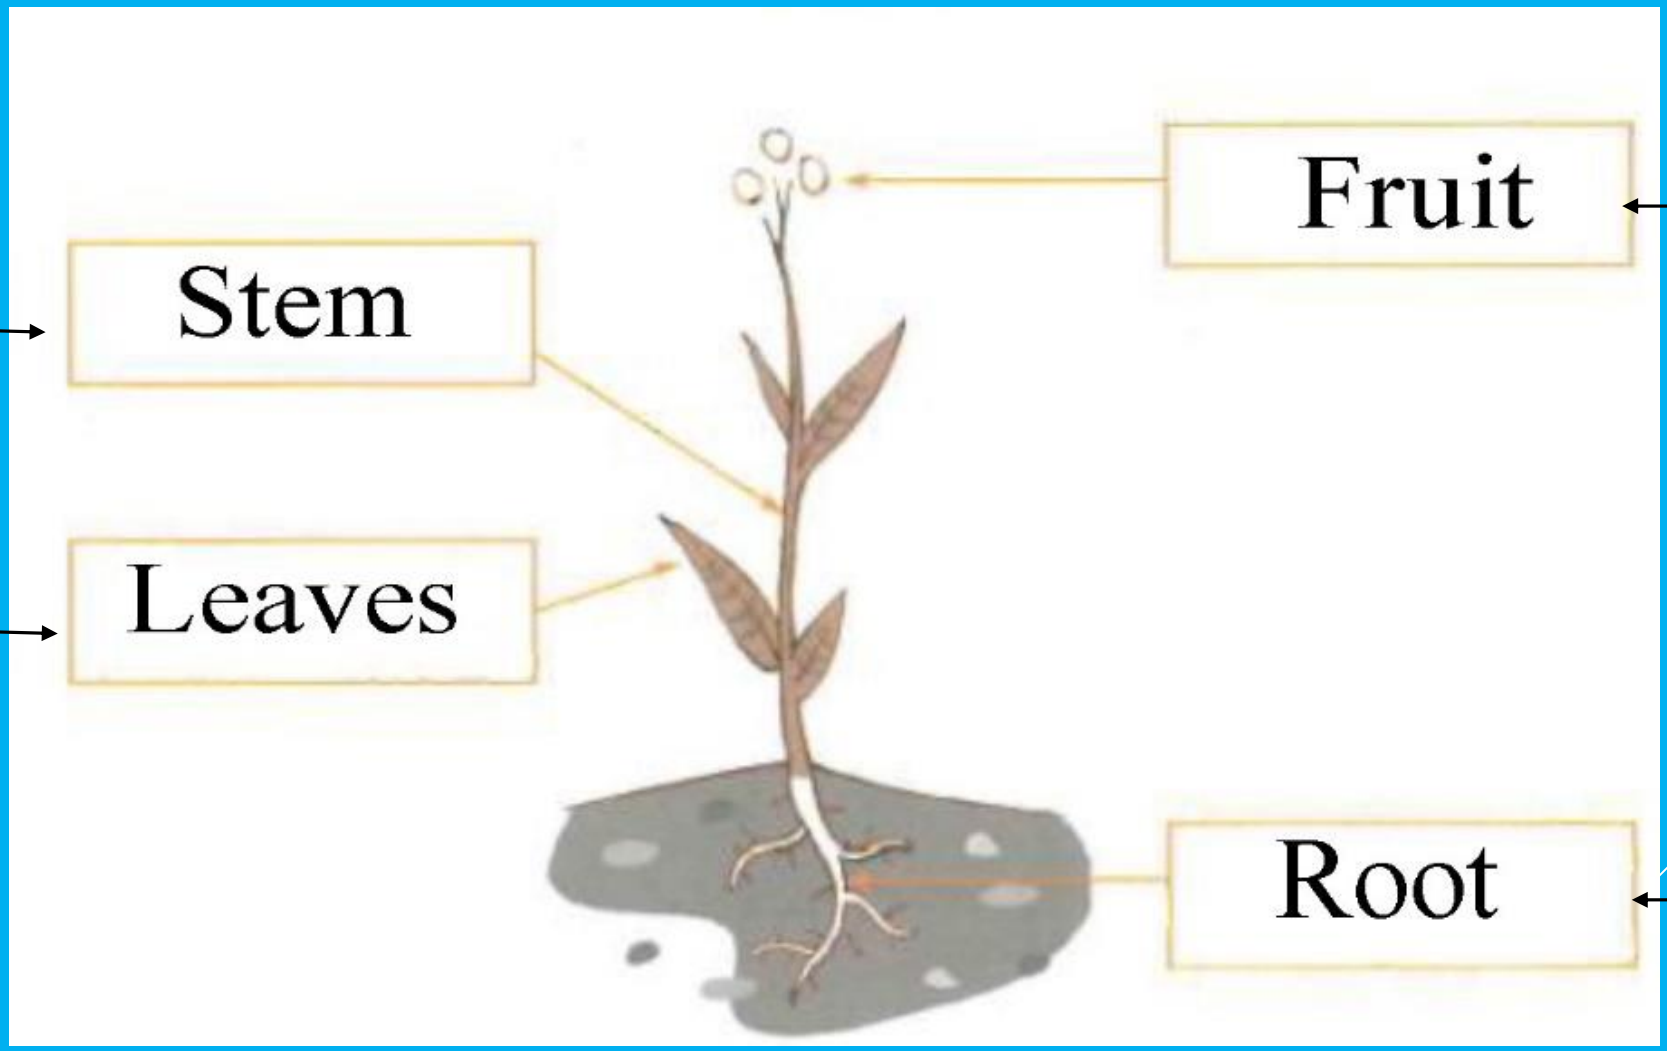
Invertebrates → Insects

© Pedro Antonio López Hernández

© Pedro Antonio López Hernández

PLANTS

PARTS OF THE PLANT



It supports the plant

They absorb oxygen

Food from plants

They adsorb water and minerals

© Pedro Antonio López Hernández

TYPES OF STEMS

Bush

Herb

TYPES OF TREES

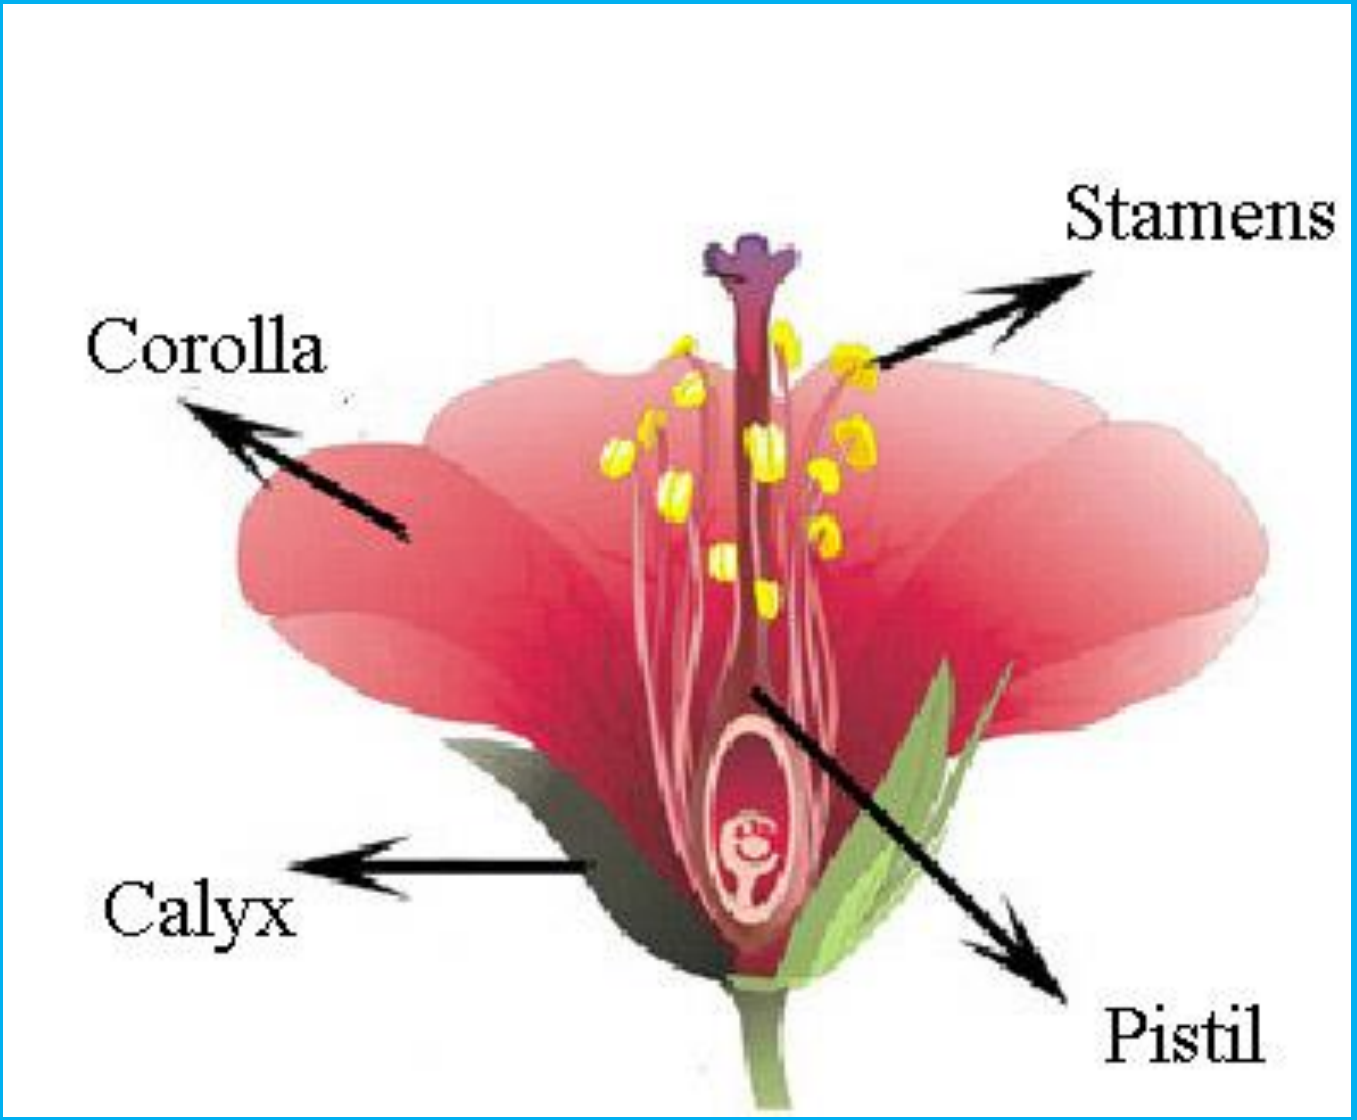
Deciduous tree → Trees whose leaves fall down in Autumn

Perennial tree → Trees that have green leaves all year

© Pedro Antonio López Hernández

© Pedro Antonio López Hernández

PARTS OF A FLOWER



© Pedro Antonio López Hernández

LANDSCAPES

© Pedro Antonio López Hernández

TYPES OF LANDSCAPES

Mountains relief

Forest

It rains all year and there are a lot of different animals and plants

Plains relief

The pole

- There aren´t trees. Eskimos live here.
- Penguins live here.

Desert

- You can find an oasis here.
- Camels live here and you can see cactus.

Coastal relief
